

Result-driven engineering professional; targeting challenging and rewarding opportunities in **Software / Application Automation** with a leading organization of repute

✉ rajuspi@gmail.com

☎ +91-9987569828

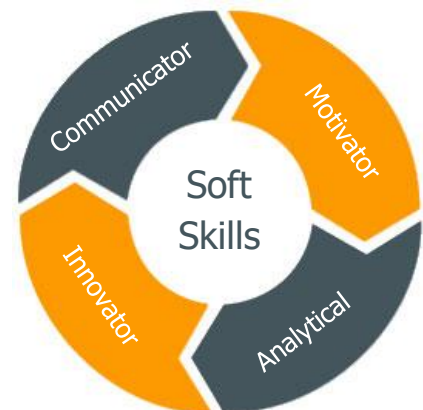

Profile Summary

- Result-oriented professional; offering **over 14 years** of experience with key focus in **Testing & Automation Design and Development of various Applications in Java, JavaScript and .net platform**
- Proficient in end-to-end **project management** skilled in mapping **clients' business requirements** and translating them into **functional specifications, services, implementations and custom designing solutions**
- Expertise in managing overall **software automation lifecycle** involving **requirement analysis, system study, designing framework, testing, programming, coding, de-bugging, defect management & documentation**
- Hands-on exposure in **Automation Development** using **Selenium Web driver in JAVA, JavaScript and .Net**
- Functional & Technical Expertise in **Insurance, Banking Citi Commercial Credit Cards, AML, BSA, Fraud Detection, Pharma Supply Chain, E-Commerce, BPM & ERP domain**
- Excellence in Web, Mobile and Web API automation testing using automation tools like **Selenium Webdriver, Appium and REST Assured**
- Dedicated & focused professional with an eye for detail, offering enriched exposure in integrating complete framework with CI Tool Jenkins for Scheduling the Test cases execution
- Showcased tenacity in leading automation release to analyze the root cause of the failed bill and provide solution in the automated scripts
- Team-based working style coupled with strong mentoring and leadership skills to motivate individual peak performances
- Directing productive cross-functional teams using interactive and motivational leadership that spurs people to willingly give 100% effort

Core Competencies

Software Application Development Lifecycle	Project Management / Technical Architect in Automation
Requirement Gathering & Analysis	Selenium Automation with Java/JavaScript/.Net
Reporting & Documentation	JIRA, Insurance /Banking/Web Application Development
Production Support	Training & Development
Client Management	Team Building & Leadership

Soft Skills

Technical Skills

- Automation skills:** Selenium WebDriver with JAVA, WebDriverIO with JavaScript, C#-NUnit and Java-TestNG. Junit, Rest Assured for API testing
- Database Skills:** SQL Server, Oracle SQL etc.
- Development Tool:** Eclipse, Jetbrains WebStorm, Microsoft Visual Studio, SQL Developer etc.
- Reporting Tool:** Crystal Reports
- Testing:** Web & Windows Application, Web API Functional, Regression, Integration & System, Mobile android and iOS app
- Management Tools:** JIRA, SVN, Maven, NodeJS
- Continuous Integration Tool:** JENKINS, TeamCity
- Code Repo:** GIT, GitHub, Bit bucket

Career Timeline (Recent three)

Education

MBA in I.T from SMU, Vashi, Navi Mumbai in 2011
B.Sc. Information Technology from SIWS, Wadala, Mumbai in 2007

Organizational Experience

Nov'19–Present as **Sr. Technical Architect** with **Hexaware Technologies Ltd.**

Jan'19–Nov'19 as **Principal QA Engineer** with **Order Genie Synergy Private Limited**

Jun'14–Dec'18 as **Principal QA Engineer** with **Bankers Toolbox Inc.**

Jun'11–May'14 as **Senior Program Analyst** with **WNS Global Service Pvt. Ltd.**

Mar'10–Jun'11 as **Software Test Engineer** with **Innovatpoint Infotech Pvt. Ltd.**

Sep'07–Feb'10 as **Jr. Quality Engineer** with **Coconut Software's Pvt. Ltd.**

Key Result Areas:

- Implementing Automation requirements by defining & analyzing system problems; designing and testing standards and solutions
- Spearheading entire gamut of operations related to automation; performing tasks like: Identification of automation scenarios from the set of Test cases / User stories identified in cycle and Leading to Cross Browser Automation
- Rendering capabilities in developing Web Automation Test cases for the identified Automation Scenarios
- Examining code prepared by other team mates and suggesting improvements if required
- Driving: a. Smoke(ERT) suite after every build and publish the detailed reports with the bugs detected b. Full Automation Regression suite and Functional TCs for every release and analyze the root cause of script failures
- Developing Quality Control by monitoring incoming, in-process and final inspection of procedures, records & documentations
- Directing and mentoring a team of manual and automation experts
- Monitoring testing activities to ensure the quality and functionality of assigned systems; ensuring timely & accurate test communication throughout the project life-cycle
- Reviewing project test and implementation schedules; monitoring, documenting, and reporting the current status of defects for each testing cycle and overall project to the management
- Managing offshore QA resources for ensuring timely project completion; developing quality standards through participating in the initial software development stages; validating and enhancing the existing QA plan and strategy
- Defining the scope of testing and producing / managing test planning documents for all releases; estimating effort for each release and procuring the number of resources required
- Frequent deliverables are
 - Daily Status Report(DSR) and Weekly Status Report(WSR)
 - Automation Stability Matrix
 - Release execution for Regression and Functional(Weekly and Major releases)

Projects Executed

Projects Title: Introducers Salesforce

Client: LV General Insurance Group (Allianz)

Organization: Hexaware Technologies Ltd.

Designation: Automation Lead

Period: Mar 2021– Till date

Domain: Insurance, Life, Investments, Pensions & Retirement

Description: LV= General Insurance is a leading insurance business offering a range of general insurance products.

Technologies Used: JavaScript, SQL Server, AngularJS, NodeJS, WebdriverIO, Webstorm, GIT etc.

Projects Title: Citi Commercial Cards

Client: Citi Bank

Organization: Hexaware Technologies Ltd.

Designation: Automation Manager / Lead

Period: Dec 2019 – Mar 2021

Domain: Banking Financial Services

Description: Commercial cards platform is used for issuing and managing credit cards provided by Corporates to their employees for business purposes, current platform consists of ECS+/TSYS, GDR, CCRS and Citi Manager

Technologies Used: JAVA, SQL Server, AngularJS, Selenium, Eclipse, TeamCity, Angular 7, Javascript, Bootstrap etc.

- Citi Manager, CCRS, CTMS - Web Automation with Selenium
- GDR (Global data repository) - Data validation Automation with Talend
- ECS+ - Web Automation with Selenium, Mainframe with PCOM and FINsim with LeanFT
